ABOUT BLACKWOOD

Objects with character

Founded in Odesa, Ukraine, in 2016, BLACKWOOD Atelier creates distinctive accessories at the intersection of art, craftsmanship and function.

Our approach is rooted in the beauty of natural materials, the traditions of craftsmanship and a contemporary perspective on design. Wood, leather, botanical elements and stones become part of a visual language that gives each piece its own character.

We believe that the objects we choose can express who we are. Rather than follow passing trends, we create pieces with meaning, designed to become part of personal stories and remain relevant over time.

EST. 2016 · MADE IN UKRAINE · IN-HOUSE CRAFTSMANSHIP

MATERIAL & CRAFT

Nature, made tangible.

Materials are at the heart of BLACKWOOD's design language. Their natural character informs the shape, texture and details of every creation.

WOOD	Chosen for its individual grain and texture. Wooden elements are shaped and finished by hand, revealing the natural character of each piece.
INLAY	Botanical elements, semi-precious stones and other natural details are carefully composed by hand and preserved in clear resin.
LEATHER	Natural leather is selected, cut and assembled in our atelier, combining considered design with skilled craftsmanship.

Across our bags and eyewear, traditional techniques meet contemporary design to create objects with a distinctive identity.
